

## Time Entry Only Option Missing

On the Watchkeeper 3 Logon screen the Time Entry Only Option is missing as shown below:

The screenshot shows two identical logon forms side-by-side. Each form has the heading 'Please enter your username and password to log in:'. Below the heading are two input fields: 'Username:' with 'Admin' entered and 'Password:'. Below the password field is a 'Login' button. Between the two forms is the word 'or'. Below the second form is a 'Login for Time Entry only' button, with the text '( no username or password required )' underneath it. The 'Login for Time Entry only' button is missing in the first form on the left.

### Reason:

This option is removed when the Advanced Permissions Option is enabled in Watchkeeper 3 Server.

### Solution:

1. Log into the Client with the Admin username and password
2. Click the Options Tab
3. Remove the tick next to 'Enable Advanced Permissions'
4. Click the Welcome Tab
5. Click the Log Off Admin icon

You should now see the option to Login for Time Entry Only.
